## INTRODUCTION

incere appreciation of fine ceramic products has become more general in recent years. Today no person of culture is oblivious to the charm of exquisite china.

The world-wide renaissance of ceramics has necessitated improved processes of manufacture and higher standards of beauty.

In this never-ending striving for perfection, LENOX, INCORPORATED, has played a conspicuous part. Into the making of LENOX China chemists and engineers have introduced every practical contribution of science. LENOX designers and artists have evolved effects which are genuinely artistic.

In craftsmanship, modernity, and artistry, the potteries of LENOX, INCORPORATED, have maintained pre-eminence in the domain of ceramics.

Through this Catalog are presented illustrations of the achievements of LENOX scientific experts, craftsmen, and artists, in creations that give attraction and charm to the home.

As arranged, color plates of new designs may be inserted, thus making the Catalog permanent.

## *MONOGRAMS and CRESTS*

\* \* \*

MONOGRAMS are measured by the diameter of a circle into which they fit. Prices for crests and special monograms are quoted from designs or samples, upon application.

Special care and attention is given to the execution of monograms and crests. We assume all responsibility for losses in "Lenox" China that may occur in our handling or firing. Losses in other makes of china that may occur in handling or firing must be assumed by the owner.

Customers will find it much more satisfactory to have us monogram china bearing the "Lenox" trade-mark. The reburnishing, and refinishing made necessary by refiring, will be properly cared for—a feature so often neglected by decorators.

On orders for less than six monograms, an additional charge of 20 per cent. will be made.
